

MYTHS

Born in 2005, **Myths** is characterised by its continuous research in textiles and groundbreaking treatments. Its mission: to be an innovator in the trousers segment while enshrining exquisite taste and simplicity with a particular attention to detail and modern, up-to-date fits. '**Fresco di Lana**' is an iconic Myths product where woollen textiles are transformed into unique and inimitable, state-of-the-art pieces. This is achieved through a patented fabric ageing technology. The final outcome is a "dream-pant".
